

ABORTION POLLING

For WHERE DO THEY STAND?

Methodology: ComRes interviewed 2,008 GB adults online between 12th and 14th May 2017. Data were weighted by age, gender, region and socio-economic grade to be demographically representative of all GB adults. ComRes is a member of the British Polling Council and abides by its rules.

All press releases or other publications must be checked with ComRes before use. ComRes requires 48 hours to check a press release unless otherwise agreed.

For information about commissioning research please contact simon.carter@comresglobal.com or call +44 (0)20 7871 8660.

Table 1
Q1. Do you agree or disagree with the following statements?
Base: All respondents
Summary table

		Criminal law plays an essential role in protecting patients against medical malpractice	Patients who are at serious risk of heavy bleeding due to a medical procedure or powerful drug should have medical supervision, in person, from a doctor	Parental or guardian consent should be required for children aged 15 or under to undergo medical procedures or have powerful drugs administered with potentially serious side-effects	Parental or guardian consent should be required for girls aged 15 or under to undergo an abortion	Doctors should be required by new legislation to verify in person that a patient seeking an abortion is not under pressure from a third party to undergo the abortion

Abortion Survey

ONLINE Fieldwork: 12th-14th May 2017

Absolutes/col percents

Table 21

Q6. In the Netherlands, the law requires a waiting period of five days between an initial consultation with a doctor and an abortion taking place, in order to ensure that the mother has had enough time to consider all of the options available to her. To what extent, if at all, do you agree or disagree that in this respect British law should be brought into line with the Netherlands?

Abortion Survey

ONLINE Fieldwork: 12th-14th May 2017

Absolutes/col percents

Table 29

Q8. At present an unborn child with a disability can be aborted at any time during pregnancy, up to birth, whereas in most cases a healthy unborn child can only be aborted through to 24 weeks. Disability campaigners have described this differential in time limit as discriminatory. Would you support or oppose a change in law that would introduce an equal time limit for disability abortions of 24 weeks?
